Intensive Vaccination work in the rules

C tun t Sh t ML FI N / Cur N Pg

Letter no BE 5835 dt 14-63 from the D.P.H

Request that instructions may be issued to all the rural to undertake the intensive vaccination work whenever the staff is deputed for the purpose by the Deptt of public Health

Some rural are not in a position to bear the expenditure in this behalf others are not willing to undertake the work on the ground that there is no need for such intensive Vaccination work in their own sanitary Inspectors have been attending to similar work in their respective areas It is not clear why all the local Bodies should be compelled to entertain the staff deputed by the Deptt of H. and have the intensive Vaccination work done in their areas and pay for it when there is no need for it

I Copy of letter dated 26-2-1943 from the President, Municipal Council, Sarihar to the Dist Medical and Sanitary Officer, Chitaldurg

With reference to your No T.1335, dated 18-2-1943 advising me that the Director of Public Health has been requested to depute four vaccinators to the town for carrying on mass vaccination, I have the honour to state that as no fresh attacks of smallpox are reported and the town is free from infection at present, there seems to be no urgent necessity for indenting the services of the vaccinatons The only onereported case is recovering The services of the District Board Vaccinator are being utilized for vaccination in the affected area of the town and he is carrying on the work briskly request you therefore to kindly address the Director of Public Health to withhold deputation of the vaccinators at present

In case there services are found necessary, timely requisition will be sent in this behalf
